

Group Template

Instructions

Use this template to describe the background and common interests of your group. Be sure to keep it handy when you're developing your individual characters, since they will likely incorporate some of these elements.

The information you write here should only serve as a starting point for character creation and as a guide to help the Game Master know what sorts of plots would be good for your party. Everything written here will likely change as the game progresses, but you do not need to keep this document up-to-date. Just use it to get things rolling and then put it aside.

If you need help getting started, you may want to look at the *Questionnaire for Group Templates* and completed examples in the resource section of FearTheBoot.com. You may also want to listen to Fear the Boot, episode 2.
